MSG26. << Tell an administrator or nurse at your school or child care that you may have been in

MSG27. <<Stay home and away from others until:>>

- it has been 10 days from when your symptoms first appeared and
 you have had no fever for 24 hours without the use of medications and
- · your other symptoms of COVID-19 are improving* (*Loss of taste and smell may persist for weeks

or months after recovery and need not delay the end of isolation)

- $\bullet \ \ \text{Please inform your close contacts that they have been potentially exposed to SARS-CoV-2. \ CDC$ recommends that all close contacts of people with confirmed or probable COVID-19 should:
- quarantine for 14 days from the day of their last exposure. You may also receive a call from a contact tracing professional.
- Get rest and stay hydrated. Take over-the-counter medicines, such as acetaminophen, if needed to help you feel better.
- Separate yourself from other people. As much as possible, stay in a specific room and away from other people and pets in your home.

MSG28. <<Stay home and away from others until:>>

- . it has been 10 days from when your symptoms first appeared and
- you have had no fever for 24 hours without the use of medications and
- your other symptoms are improving* (*Loss of taste and smell may persist for weeks or months
 after recovery and need not delay the end of isolation)

<<*Please note>>: It is possible that you were very early in your infection when your sample was collected and that you could test positive later. If your symptoms worsen after testing negative, please

MSG29. << While waiting for your test results, isolate at home and follow the advice of your health

MSG30. <<Stay home and away from others until:>>

- it has been 10 days from when your symptoms first appeared and
- · You have had no fever for 24 hours without the use of medications and
- Your other symptoms of COVID-19 are improving* (*Loss of taste and smell may persist for weeks) or months after recovery and need not delay the end of isolation)

MSG31. <<CDC recommends that all close contacts of people with confirmed COVID-19 should quarantine for 14 days from the day of their last exposure.>> Based on local testing availability, local health authorities may have options to reduce the time people spend in quarantine. You may also receive a call from a contact tracing professional.

TESTING MESSAGES

TO. << Based on the answers given, you do not need to get tested unless recommended or required by your healthcare provider, employer, or public health official.>>

T1. [no testing message T1]

T2-Domestic [no testing message T2-Domestic]

T2-International << You may be eligible for COVID-19 testing.>> Contact your local emergency services for more information.

T3. <<CDC recommends that all close contacts of people with confirmed COVID-19 should:>>

 get tested and
 quarantine for 14 days from the day of their last exposure. Based on local testing availability, local authorities may have options to reduce the time people spend in quarantine. You may also receive a call from a contact tracing professional.

T4. <<CDC recommends that anyone with symptoms of COVID-19 should get tested and follow the advice of your healthcare provider.>> Contact your local or state health department to find a testing location near you.

T5. <<Further testing is not needed unless a healthcare provider recommends it.>>

T6. << Further testing may not be needed at this time, unless recommended by a provider.>>
